The System Number is being updated from 33VA113 to 33VA10 to reflect the current VHA organizational routing symbol.

The language in Routine Use #6 is being updated. It previously stated that disclosure of the records to the Department of Justice (DoJ) is a use of the information contained in the records that is compatible with the purpose for which VA collected the records and that VA may disclose records in this system of records in legal proceedings

before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. This routine use will now state that DoJ, or in a proceeding before a court, adjudicative body, or other administrative body before which VA is authorized to appear, when:

- (a) VA or any component thereof;
- (b) Any VA employee in his or her official capacity;
- (c) Any VA employee in his or her official capacity where DoJ has agreed to represent the employee; or

is a party to such proceedings or has an interest in such proceedings, and VA determines that use of such records is relevant and necessary to the proceedings.

Routine use #11 is being added to state, "To another Federal agency or Federal entity, when VA determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach."

Policies and Practices for Retention and Disposal of Records is being updated to remove "Regardless of the record medium, records will be maintained and disposed of in accordance with the record disposition authority approved by the Archivist of the United States under National Archives Job No. N1-15-01-4." This section is updated to state that NPPD records will be maintained and disposed of in accordance with Records Control Schedule (RCS) 10-1, 7700.4, temporary disposition; Cutoff at the end of fiscal

year in which prosthetic procedure was concluded. Delete 3 years after cutoff. (N1-15-01-4, 11/17/03, item 1)

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

1. Access to VA working and storage areas is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis. Physical access to the AITC is generally restricted to AITC staff, Central Office employees, custodial personnel, Federal Protective Service and authorized operational personnel through electronic locking devices. All other persons gaining access to the computer rooms are escorted.

Automated data processing peripheral devices are placed in secure areas (areas that are locked or have limited access) or are otherwise protected. Information in the VistA may be accessed by authorized VA employees. Access to file information is controlled at two levels; the systems recognize authorized employees by a series of individually-unique passwords/codes as a part of each data message, and the employees are limited to only that information in the file which is needed in the performance of their official duties. Access to information stored on automated storage media at other VA locations is controlled by individually- unique passwords/codes.
